

We Listen | We Respond | We Bring Solutions

A Manufacturer's Representative

- Precision machining and automated assembly
- Small precision components to large hog-outs
- High-end machining centers and lights-out operation

- High reliability PCB manufacturing - M31032, M55110, AS9100, NADCAP certifications
- Simple low layer to high layer count, complex technology and construction
- In-house finishing options include leaded and lead-free HASL, ENIG, and immersion silver

- Design & manufacture custom EMI filters for mil-aero communications & power applications
- MIL PRF 15733 & MIL PRF 28861 equivalent, TEMPEST, HEMP, SCIF
- Standard & custom film foil capacitor winding & inductor manufacturing

- Optical filters and coatings for displays and lenses.
- Transparent heaters, EMI filters, anti-reflective, night-vision compatible and more.
- Complete display product including LCD, touch screen, bezel and frame.

- Rad Hard GaN FETs
- Rad Hard GaN Drivers and Power Modules

- Hi-reliability flex and rigid-flex up to 40-layers
- Full turn-key: from layout and gerber design to full assembly

- Circuit-card assemblies
- Box-builds and Higher-Level Assemblies (HLA's)
- Hi-reliability cables and harnesses

- M55302 connectors: 0.075" & 0.100" spacing
- Custom PCB connectors

- Electro-mechanical assemblies, prototype, test equipment and ground support
- CNC machining, forming and bending, soldering, welding and assembly

- Hi-Rel Power Engineering: rectifiers, bridges, voltage regulators, TVS & lightning strike
- Si, SiC and GaN modules
- Motor controllers and Solid-State Power controllers up to 32-channel

Indiana, Ohio, Michigan, Kentucky & W Pennsylvania
